Invitation letter

To,

Date:

Respected Sir/Madam,

It is our pleasure to send a warm invitation for NEPTA's **9th International Physiotherapy Conference (NEPTACON-2018)**, being held on 30th November and 1st December 2018.

With over 600 participants expected to attend, including national and international delegates, NEPTACON-2018 promises to be a memorable event. Under the theme of **STRENGTHENING REHABILITATION: MULTIDISCIPLINARY SPECTRUM**, the conference has attracted renowned speakers in their respective fields with in-depth clinical and research experience. Representatives from the Ministry of Health, Nepal Health Professional Council, Nepal Medical Council, and Planning Commission will also be present, along with expert physiotherapist and rehabilitation stakeholders.

The conference offers a key opportunity for the profession to learn, network and discusses the issues that are most relevant in the current situation of Nepal. Physiotherapists from hospitals, private clinics, rehabilitation centers, and like-minded organizations in the rehabilitation and physiotherapy sectors are attending, along with physiotherapy students, interns and physiotherapy educators in Nepal. Various other health professionals including occupational therapists, prosthetists, orthotists, nurses, and doctors will also be attending the conference, promising an interdisciplinary experience.

Events such as NEPTACON-2018 work at the heart of World Confederation for Physical Therapy (WCPT)'s and Asia West Pacific (AWP) vision to move physiotherapy forward so the profession is recognized globally for its significant role in promoting health and wellbeing.

NEPTA would like to request you to support by sending the physiotherapist and the respective faculty of your institution for professional development and overwhelming success for the conference. Thanking You.

Yours sincerely,

Nepal Physiotherapy Association (NEPTA)
